Aspiring junior developer with a passion for backend and cross-platform development, recently transitioned to tech after 10 years in logistics and customs. My experience has equipped me with strong problem-solving abilities, attention to detail, and adaptability—all of which I now bring to my work as a developer.

I relocated from Spain to Norway to pursue my tech career and I am eager to contribute and grow within an innovative team.

Arbeidserfaring / Work experience

- | | |
|--------------------|--|
| 05.2024 –Currently | Autronica Fire and Security AS, Trondheim
