Profile

Motivated and detail-oriented back-end developer transitioning from a decade of experience in international logistics, supply chain and customs brokerage.

Recently graduated in Multiplatform App Development (Java/Kotlin) and Back-End Development at Noroff University (Node.js, JavaScript).

Passionate about software architecture, databases, and delivering scalable applications. Actively building personal projects and eager to join a tech company where I can grow as a back-end or full-stack developer.

Technical Skills

- **Languages:** JavaScript, Java, Kotlin, HTML/CSS, SQL, React
- **Frameworks/Tools:** Node.js, Express.js, Android Studio
- **Databases:** MySQL, MongoDB
- **DevOps:** Docker, Kubernetes, AWS (basic), Git
- **Deployment:** Vercel, Render, Netlify
- **Other Tools:** GitHub, Postman, Visual Studio Code

Education

FULL STACK WEB DEVELOPMENT (IN PROGRESS)

Fullstack Open – University of Helsinki (2024)

→ A comprehensive course covering modern web development with React, Node.js, Express, MongoDB, and RESTful APIs.

→ Emphasis on testing, CI/CD, GitHub workflows, and application deployment.

BACK-END DEVELOPMENT

Noroff School of Technology, Norway – Jun 2025

→ Focused on server-side development, APIs, and scalable systems using JavaScript/Node.js.

HIGHER TECHNICIAN IN MULTIPLATFORM APP DEVELOPMENT (DAM)

IOC (Spain), Aug 2021 – Jun 2024

→ Strong focus on Java/Kotlin, Android development, database integration, and software design.

HIGHER TECHNICIAN IN INTERNATIONAL TRADE

IOC (Spain), Aug 2017 – Feb 2022

→ Training in global logistics, customs, and trade operations.

Certifications & Courses

- **Cisco CCNA 1-3** – Introduction to Networks, Switching & Routing, Enterprise Networking
- **DG IATA Certificate** – Handling of Dangerous Goods by Air (Jun 2023)
- **Forklift Certificate** – Occupational risk prevention (Apr 2022)

Projects

- **E-COMMERCE WEB APPLICATION**

A fully functional e-commerce platform developed as a final project at Noroff University.

Includes user authentication, product catalog, shopping cart, and order management.

- Built entirely with **JavaScript**, using **Node.js**, **Express**, and **EJS** for server-side rendered views
- Integrated **MySQL** database using **Sequelize ORM** with full model-based table deployment
- Implemented **JWT** authentication and **role-based access control**
- Project documented with **Swagger**
- **Test coverage** with **Jest** and **Supertest**. Project tracking done with **Jira**
- Deployed to production using **Render** and **PlanetScale**

*GitHub repository (*shared upon request*)

- **PUNTUALAPP – ANDROID ATTENDANCE TRACKER**

Android app developed in **Java** to manage employee attendance through real-time geolocation.

- Utilizes **Google Maps API** to capture and register location at clock-in/out
- Features secure user authent. using **AWS Amplify** and **Cognito**, with email verification.
- Connects to a **PHP-based backend** hosted on **AWS EC2**, interfacing with a **MySQL** database
- Backend includes **phpMyAdmin** for database visualization and management
- Built as a **final degree project** for the (DAM) program, in Barcelona.

- **TODO LIST – REACT WEB APP**

A simple yet functional task management app built with React to practice component-based architecture and React hooks.

- Developed using React with functional components and useState/useEffect hooks
- Styled with CSS modules for scoped component styles
- Implemented features like add/edit/delete tasks, mark as complete, and filter by status
- State stored locally using LocalStorage
- Deployed on Netlify for public access (private access)
- Built as part of learning path to reinforce modern front-end development with React

*More projects has been developed (*shared upon request*).

Arbeidserfaring / Work experience

AUTRONICA FIRE AND SECURITY AS – TRONDHEIM, NORWAY

Warehouse Operator — May 2024 – Present

- Assembled and tested fire alarm sensors; handled national/international shipments.

CENCORA - WORLD COURIER – BARCELONA, SPAIN

OPS Coordinator / Customs Broker — Dec 2021 – Feb 2024

- Managed international air shipments for pharma and R&D labs.
- Worked as customs agent and supported warehouse/truck logistics.

CMA CGM – BARCELONA, SPAIN

Traffic Technician (Intermodal Department) — Mar 2021 – Nov 2021

- Managed national maritime container transport and truck coordination.

**(Earlier roles at Ceva Freight, Vapores Suardiaz, and UPS are available upon request.)*
